## **Response to Amendment/Arguments**

1. This action is in response to amendment arguments received on 01/04/2008.

Based on amendment to claims 41-45, rejection of claims 41-45 under 35 USC 101 is withdrawn.

Applicant's arguments regarding claims 41-45 with respect to obviousness type double patenting as being unpatentable over claims 1-27 of U.S. Patent No. 6,665,446 is not persuasive .

Applicant has argued that inn the present invention, a specific image area of the input image is extracted utilizing a two step process. First, the specific image is extracted by specifying an image area having color component values within a predetermined range, and then, second, a determination is made whether or not the specified image area has a predetermined shape. In contrast, in the claims of the '446 patent, the specific area is extracted by pattern matching between an area having a predetermined color component value range and a predetermined shape.

U.S. Patent No. 6,665,446 recite the specific area is extracted by pattern matching between an area having a predetermined color component value range and a predetermined shape and since independent claims in the U.S. Patent No. 6,665,446 recite comprising i.e. claim in the U.S. Patent No. 6,665,446 are open-ended therefore it also includes First, the specific image is extracted by specifying an image area having color component values within a predetermined range, and then, second, a

determination is made whether or not the specified image area has a predetermined shape.

### ***Double Patenting***

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 31-45 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-27 of U.S. Patent No. 6,665,446. Although the conflicting claims are not identical, they are not patentably distinct from each other because claims 31-45 claims the similar subject matter of claim 1-27 of U.S. Patent No. 6,665,446.

### ***Conclusion***

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
